

OFFICIAL PORTAL MANUAL

SCCG Career Lab UG End User Manual

A practical step-by-step guide for partner and customer users to understand the portal, complete daily workflows, and navigate each feature confidently.

Portal URL

<https://portal.mysccg.de>

Audience

Partner users and Customer users

Purpose

Daily use, onboarding, workshop preparation, and guided feature testing

Prepared By

SCCG Career Lab UG

This manual is based on the current live portal experience and is intended for end users who are new to the system.

Table of Contents

- 1. Portal Overview
- 2. Quick Start For New Users
- 3. Partner Role Guide
- 4. Customer Role Guide
- 5. End-to-End Process Flows
- 6. Good Usage Practices
- 7. Troubleshooting and Support

1. Portal Overview

The SCCG portal is a role-based operational platform. Each user sees features that match their role and current business journey.

Partner Role

Partners use the portal to manage candidates, prepare offers, track tasks, maintain B2B relationships, review finance, access the marketplace, and receive support.

Customer Role

Customers use the portal to review offers, follow their service timeline, track packages and courses, attend sessions, manage messages, and review payments and invoices.

2. Quick Start For New Users

1. Open the portal URL in a modern browser.
2. Sign in using the role-specific username and password provided by SCCG.
3. Wait for the role dashboard to load. This is your home screen.
4. Use the left menu to move between modules.
5. Use dashboard summaries first to understand your current tasks, records, or pending actions.
6. Complete actions step by step and return to the dashboard regularly to monitor progress.

Important: The portal is workflow-driven. Most users should start with dashboard review, then move into records such as candidates, offers, packages, messages, or payments.

3. Partner Role Guide

The partner role is designed for business development, candidate handling, offer preparation, B2B relationship management, financial follow-up, and support communication.

3.1 Partner Dashboard

The dashboard gives a quick operational overview. It is the recommended starting point each time the partner logs in.

The screenshot displays the Partner Dashboard for a 'Proud SCCG Silver Partner'. The interface includes a sidebar with navigation options like 'Candidate Gallery', 'Register Candidate', 'Create Offer', 'My Tasks', 'My B2B Network', 'Finance Overview', 'My Revenue', 'Due Payments', 'Invoices', 'Make Payment', 'Refund Requests', 'Marketplace', 'Account Settings', and 'Support / Helpdesk'. The main content area shows a welcome message and a 10% commission rate. Key performance indicators (KPIs) are displayed in a row: Candidates (0), Total Revenue (€0), Open Offers (0), Active Tasks (0), and B2B Network (0). Below these, there are three main sections: 'My Revenue' (Total earnings: €0, with sub-sections for Paid out and Pending), 'Current Active Candidates' (0 total, with sub-sections for Total Active, Successful, Pending Review, and Drop-outs), and 'My Tasks Engine' (All tasks completed). The footer indicates the system is operational and provides contact information for SCCG CAREER LAB AG.

Partner dashboard: summary KPIs, shortcuts, and current activity overview.

3.2 Candidate Gallery

Use Candidate Gallery to view, search, and manage candidate records already connected to your account.

- Review existing candidate records
- Open candidate details

- Track status and related service workflows

3.3 Create Offer

The Create Offer module is used when the partner wants to prepare service offers for customers or candidates.

- Create new offers
- Review offer status
- Continue working on existing offers

3.4 My Tasks

This area helps partners manage action items generated by ongoing services and internal workflows.

The screenshot displays the 'Partner Portal' interface. On the left is a dark sidebar with a 'Partner Portal' header and a 'Proud SCGG Silver Partner' badge. Below this is a search bar and a 'MAIN CONSOLE' menu with categories: Dashboard, Candidate Gallery, Register Candidate, Create Offer, My Tasks (highlighted), My B2B Network, FINANCE (Finance Overview, My Revenue, Due Payments, Invoices, Make Payment, Refund Requests), MARKETPLACE (Marketplace), and ACCOUNT (Account Settings, Support / Helpdesk). The main content area is titled 'Partner Task Board' with a subtitle 'Manage, assign, and track operations for candidate milestones.' It features a search bar and a '+ Add Task' button. Below are five task status columns: Backlog, To Do, In Progress, In Review, and Done. Each column shows '0' tasks and a '+ Create task' link. The bottom of the page has a footer with 'My Tasks: operational follow-up for daily work.' and a small status bar indicating 'System operational' and 'SCGG CAREER LAB UG'.

3.5 My B2B Network

The B2B section is used to maintain partner company relationships and issue cooperation certificates when relevant.

- Add B2B companies
- Upload supporting files
- Review relationship status
- Manage certificate actions when available

3.6 Finance

Finance Overview and related pages help partners understand business performance, invoices, payments, refunds, and due amounts.

The Marketplace provides access to products, services, and downloadable resources relevant to partners.

3.9 Partner Process Flow For New Users

1. Log in and review the dashboard first.
2. Open Candidate Gallery to understand your active candidate base.
3. Create or review offers for current business opportunities.
4. Check My Tasks to see what requires action today.
5. Use My B2B Network to maintain business relationships and upload documents where needed.
6. Check Finance for invoices, payments, and due follow-ups.
7. Use Marketplace to access partner resources and service packages.
8. Use Support / Helpdesk whenever a process issue or question needs SCCG follow-up.

4. Customer Role Guide

The customer role is designed to help end users track their journey, documents, services, messages, and payment activity from one place.

4.1 Customer Dashboard

The dashboard is the main home screen for customers. It should be the first page checked after login.

4.2 My Offers

Customers can review offers prepared for them, compare service options, and monitor offer progress.

4.3 My Timeline

The Timeline page helps customers understand what has happened already and what comes next in their service journey.

My Timeline: a structured view of progress and next steps.

4.4 Packages and Courses

Customers can review assigned packages and any learning-related items such as courses.

My Packages: purchased or assigned package details.

My Courses: course access and education-related progress.

4.5 Sessions and Messages

Sessions show scheduled engagements while Messages is the communication space for direct follow-up.

Sessions: customer appointments and planned interactions.

Messages: communication and response history.

4.6 Payments and Invoices

These pages give financial transparency for the customer side of the journey.

Payments: review payment activity and outstanding items.

Invoices: billing history and invoice review.

4.7 Customer Process Flow For New Users

1. Log in and start with the dashboard.

2. Review My Offers to understand approved, pending, or active services.
3. Check My Timeline to understand the current stage of your journey.
4. Open My Packages and My Courses to review active learning or service items.
5. Monitor Sessions for scheduled support or educational interactions.
6. Use Messages for communication and clarification with the support team.
7. Review Payments and Invoices regularly for financial clarity.

5. End-to-End Process Flows

5.1 Partner End-to-End Flow

1. Partner logs in.
2. Partner checks dashboard and active tasks.
3. Partner reviews or creates candidate records.
4. Partner prepares offers and continues candidate service workflows.
5. Partner updates B2B relationships and uploads supporting files where necessary.
6. Partner monitors financial progress, invoices, and payment activity.
7. Partner uses support when escalation or clarification is needed.

5.2 Customer End-to-End Flow

1. Customer logs in.
2. Customer checks dashboard summary.
3. Customer reviews offers and timeline updates.
4. Customer accesses packages, courses, sessions, and messages.
5. Customer checks payments and invoices as part of ongoing service delivery.
6. Customer returns to the portal regularly to track new updates.

6. Good Usage Practices

- Start from the dashboard every session.
- Use the left navigation menu rather than relying only on browser history.
- Review tasks, messages, and timeline items frequently.
- Keep profile and account information accurate.
- Use support when any business or technical question blocks your work.

7. Troubleshooting and Support

- If a page does not load correctly, refresh the browser once.
- If login fails, verify the exact username, password, and correct portal login URL.
- If expected records are missing, first return to the dashboard and then re-open the module.
- If you still face an issue, use the Support / Helpdesk area or contact SCCG directly.
